and Mrs. R. P. Samuels and girl, Helen, passed through Hondo on their way to Knappa where they and Mrs. Samuels' parents Mr. and S. H. McGinnis, returning to Sunday night. Mr. Samuels in the Samuels Glass Co. in San Antonio.

and Mrs. T. A. Stevenson and son were here last week-end the of Mrs. Stevenson's father, Mr. D. Hurt. Mr. Stevenson is the manager of the Eagle Pass exchange. He says business in the border city is a little quiet now.

the latest information from Dr. and party located them at Colorado, June 18th. From the itinerary mapped out calls to the Royal Gorge, Colorado Springs and Denver. From the city they will turn their faces toward, and by the time the next Herald is in the hands of its readers they should either be back, or home.

P. Mann informs the Anvil that his section of the lower is now assured a bumper corn crop having received two fine rains. A half and a half rain fell there and two inches again on and he feels very much elated the prospects. Says, however, that weevils and grasshoppers doing some damage, the latter even injured the leaves on pecan trees. Mr. Mann says that the weevils in his and farmers are not rushing market. They expect better after the first harvest rush is over.

Wurzbach, one of the upper's enterprising young farmers, a business caller at this office today. Mr. Wurzbach said the crop, where not too severely with the root worm, was well in his section but was in rain, the prevailing local of the last few weeks not reached them. The farmers been taking advantage of the weather to harvest and thresh and the average is running 40 to 45 bushels. He threshed field of his own that yielded 40 bushels per acre, this being the best yield he has heard of. Mr. Wurzbach says the root worm in corn is becoming exceedingly troublesome generally distributed throughout the section, but so far, by so rotating crops that corn is never followed on the same land the second crop has not suffered any serious ravages.

Alex and Ferdinand Boehme were county seat visitors Wednesday on legal business. While here Mr. Alex Boehme, who has business interests at Riomedina and San Antonio, paid our office an appreciated call. Mr. Boehme said prospects around Riomedina are encouraging.

Mr. and Mrs. C. R. Gaines went to San Antonio last Sunday and brought Mrs. Gaines's father and mother, Mr. and Mrs. W. H. Taylor home. It will be good news to the people of Hondo to learn that Mr. Taylor, who recently was so critically ill, has about regained his normal health.

The Hondo Aztecs, the Mexican baseball team, overwhelmed the D'Hanis-Secco teams at de Montel Park last Sunday afternoon. In fact the visitors were not even given a look-in on the game, the Aztecs snowing their opponents under to the tune of 18 to 0. The Aztecs have a game scheduled with the Kerrville Mexican team on the local diamond Sunday afternoon at 3:00 o'clock. Go out and see them scalp that Kerrville bunch.

It would be a great deal better business to buy a Hummer-Hitt Boll Weevil Destroyer and stop what few weevils are in your cotton crop right now, than to wait and see just how much damage they are going to do before you buy a destroyer. The weevils multiply faster than you realize and there is always a chance of waiting until it is too late. So get a Hummer-Hitt and go after the weevil right now, tomorrow may be too late. "It's better to be safe than sorry". ADAMS COMPANY, DEWINE TEXAS.

The Anvil Herald did not learn of the return of Fred. Burgin, of Yancey from Southwestern University, Georgetown, last week until too late to make mention of the fact. Fred completed his freshman year over there and returned this far with his uncle, Prof. W. N. Saathoff, en route to his home. He is another of Medina county's ambitious young men who has started out to avail himself of the opportunities for a higher education offered by the University, and believes where there is a will there is a way. May he succeed in his laudable purpose is the wish of all his friends.

Attention is invited to the announcement on the front page of this paper of the opening of Castroville's new amusement park which is scheduled for July 4th. This park is on the grounds of the old Castroville Creamery property—the late Judge James Paul homestead—on the bank of the Medina in the west part of town. The property was purchased some months ago by Mr. John Tragger of San Antonio, has been improved by him, and now offers pleasure seekers every possible facility for out-door amusement. It will no doubt become at once one of Castroville's chief points of interest to visitors and home people alike.

Geo. E. Graff was a business caller at this office Saturday and took advantage of the Anvil Herald-Farming Club offer to read our farm journal for another year. If all the Anvil Herald readers would emulate Mr. Graff's example and dig up fifty cents each to help Farming along we would be sitting easy. Thank you, Mr. Graff; who'll be the next?

Mrs. Joe Breiten has set an example that the people of Hondo could emulate with profit—she has given her home a thorough coat of paint both inside and out. Nothing adds to the attractiveness of a home as does a coat of paint and it is a matter of economy as well, as it preserves the lumber against the weather. Hondo would be a more attractive town if our people would follow the example set by Mrs. Breiten and use several 100,000 gallons of paint. Alois Hornung had the contract for Mrs. Breiten's work.

The latter part of June and the early part of July is the time we have lost our last three cotton crops. The second, third and fourth crop of Boll Weevils come on the thickest during that time. Hummer-Hitt Boll Weevil Destroyers used right now and kept constantly going will save your crop from weevil and insect destruction. Get busy right now and join the thousands of farmers that are being benefitted by their use all over the cotton belt. If you lose this crop it will be 12 long months before you will have another opportunity to use Hummer-Hitt or anything else, and the price of cotton this year will justify your doing everything possible to save your crop. ### A MAN'S PRAYER.

(From the Postoffice Clerk)  
Let me live, Oh, Mighty Master,  
Such a life as men should know,  
Tasting triumph and disaster,  
Joy—and not too much of woe;  
Let me run the gamut over,  
Let me fight and love and laugh,  
And when I'm beneath the clover  
Let this be my epitaph:

Here lies one who took his chances  
In the busy world of men;  
Battled luck and circumstances,  
Fought and fell and fought again;  
Won sometimes, but did not crowing,  
Lost sometimes, but didn't wail,  
Took his beating, but kept going,  
Never let his courage fail.

He was fallible and human,  
Therefore loved and understood  
Both his fellow men and women,  
Whether good or not so good;  
Kept his spirit undiminished,  
Never lay down on a friend,  
Played the game till it was finished,  
Lived a sportsman to the end.

### FROM THE BANDERA NEW ERA.

#### DIED AT D'HANIS.

Mrs. Regina Nester died at D'Hanis on Sunday June 3, and was buried there the following Wednesday. Mrs. Nester was a sister to Ben Batto of Bandera, and was 71 years of age. She leaves a husband and ten children to mourn her loss.

Mr. Batto, accompanied by his daughter, Mrs. M. V. Adamietz, and Mrs. Batto, attended the funeral at D'Hanis. Our sympathy is extended to Mr. Batto and to other relatives in their bereavement.

The case of Johnny Odell, convicted of burglarizing the First National Bank of Bandera and sentenced to five years in the penitentiary, was affirmed by the Criminal Court of Appeals last week.

Messrs. J. Sandilanda and B. H. Walker of Dallas, and Capt. L. J. Haby of Medina Lake, were visitors at this office Tuesday. The first named gentlemen are here on a camping trip and are enjoying our wonderful climate and the beautiful scenery.

Bandera baseball team went over to Hondo last Friday and walloped the Hondo team in great fashion. When the smoke of the battle cleared away and the scoreboard could be seen it showed our team was victorious.

MONTE CARLO IN "FOOLISH WIVES".

Monte Carlo is to some the Paris of the Riviera, and to others the plague of its glory and some of its "Foolish Wives", at the time, July 4 and 6.

The social attractiveness of Monte Carlo brings all sorts of women into close contact with the gaming tables. There are the vice rub shoulders in greed for gain, and make a microscopic scene without parallel anywhere in the world. The picture in which "Foolish Wives" was made is right after the Armistice when Monte Carlo was still a place of numerous soldiers of the World War and the fidelity with which the Universal Film Company followed in making this picture is illustrated by the picture of American, British, and Italian soldiers who in their own uniforms and in the queenly wife of the Ambassador takes her place in a chaise longue of the hotel at Monte Carlo she drops her book. A man sitting nearby makes an attempt to recover it for her, so the lady, performs this office with a gallant flourish. And both the unchivalric soldier with scorn—as one who doesn't have the amenities of life.

On, while coming out of the hotel, the Ambassador's lady with the same man and off the cloak which has his arms. Turning to glare at the fellow she suddenly discovers that he has no arms—given both in the service country. He stands there, unable to pick up his own cloak, but silent in his pain. Then that Helen Hughes proves a true daughter of this generous country, for she takes the cloak of the soldier, drapes it over his shoulders, and, picking up one sleeve, kisses the wound that proclaims the sacrifice of the American has made for his country.

"Foolish Wives" is not so frivolous after all.

TO TWO CITIZENS.

The Anvil Herald is in receipt of a communication, evidently written by a pious, God-fearing man but signed Two Citizens, in which the Ku Klux are taken to task in a mild but very emphatic and reasonable manner. There is nothing objectionable about the communication save that we do not know who the authors are, and it is against good usage for newspapers to print purely anonymous communications. If our friends will let us know who they are we will gladly publish their letter and sign it in the paper Two Citizens.

Two Citizens may wonder why we published such a communication for the Ku Klux without knowing the names of the authors, and demand this knowledge of them. Had it been mailed or sent to us by unknown parties it would never have been printed—but it was brought to us in person by two well-known men who assumed personal responsibility for it on behalf of the Klan. We ask this much from all who wish us to print their communications—and we will print anything within the bounds of reason for anybody when presented in this way.

THE RAIN.

Very good rains have fallen in Hondo since our last issue, .37 of an inch falling last Saturday and .85 Sunday evening totaling 1.22 inches. The rain, however, did not cover a very large scope of country and some localities are still somewhat in need of moisture. However, it is still hoped that all parts of the county will be visited by copious rains in time to save the crops.

These timely rains have lifted a great anxiety from our people. They realized that the burden of feeding middle and east Texas rested upon them and for a while it began to look as those less favored parts of the State would have to look elsewhere for their source of food supplies, and it was a cause of rejoicing among our people when the timely arrival of rain assured another good corn crop that will enable them to continue to play the role of good Samaritans to the benighted people who persist in living in sections where farming affords very precarious means of keeping the wolf from the door.

A CORRECTION.

In the usual hurry and rush of last week we failed to note that Mr. Aug. E. Weynand has the agency for two cars—the Durant and the Star—and in making mention of the winnings of the Durant car in a recent 500-mile speed contest, we quoted the price of the Star—\$545.00—as being the price of the Durant car. The price of the Durant is \$1010.00. Of course a little matter of \$465.00 difference doesn't cut any figure with an editor, but it might with some one able to figure on the purchase of a car. Hence, this correction. Don't ask Mr. Weynand to sell you a Durant for \$545.00 for he couldn't collect the difference here.

WITH THE DRILLERS.

But little new among the drillers has come to our knowledge this week, development work from one cause or another being halted.

Mr. and Mrs. Frank Brown of the Ina Oil Company, drilling on the George Schmidt ranch, were up Tuesday, and Mr. Brown was bubbling over with enthusiasm over the prospects of the well. In fact, Mr. Brown says it is no longer a matter of getting a paying well, but how much the production will develop into. He says he already has a paying well with the drill only resting on top of the oil sand, and asserts his confidence in the well developing into an enormous producer as soon as the proper casing arrives to make it safe to bring it in. He has ordered a copper screen from Houston and as soon as it arrives and is placed the drill will be sent deeper into the sand, and Mr. Brown confidently predicts oil will shoot over the top. He says the last sand penetrated is what is known as the Orange county sand—a very prolific oil sand—and he predicts the well will prove a sensation to oil men of Texas—where sensational oil strikes are constantly being made—when its full capacity is finally developed. This well will be very much in the Spot-light and will hold the breathless interest of our people until its full capacity is definitely established. This well is standing at 927 feet.

Fritz Fuchs, the big operator in numerous oil fields in the state, is so thoroughly convinced of an oil pool in this section that he plans other development in the vicinity of Yancey, despite the fact that the well he recently drilled in that section proved a "duster"—or rather failed to be a payer. Some oil was encountered but not enough to put it in the producing class. He is busy perfecting leases and as soon as the preliminary work is completed he will take over the abandoned Nixon No. 1, which was abandoned by the original owners in bad condition. This well had a fine oil showing around the 1,100 foot level, but was cased off as the well was sunk deeper. The bad condition of the well occurs below the 1,100, and we understand it is the purpose to plug the hole at that depth, draw the casing and develop the sand passed up in the original well. Mr. Fuchs is an old and experienced oil man, and his efforts to reclaim the well will be watched with great interest.

We have heard nothing from the Francisco drillers further than that the Jungman well is pumping around three and a half barrels daily. Experienced oil men say this well could be developed into a 25-barrel well daily, and this will eventually be done.

From The Devine News.

New Threshers Coming in For Broom Corn.

Mr. L. F. Price says that Adams Co. has about \$2,000 worth of new machinery, in broom corn threshers and balers, now coming in and that The Ginn Broom Corn Works, of Wichita, Kan., will have a thresher and baler here in a few days, ready to aid the local threshers in saving the broom corn crop. Adams Co. has agreed to furnish the Wichita people with lot, near big Warehouse for their machinery and in turn are to get some help from the Ginn Works, in helping to get started to threshing. Mr. Price says he didn't want to order this machinery, but it seemed that nobody would and that the time to strike is right now, while broom corn is \$300. the ton for the best grades. He has a man out with his tenants and farmers looking after the ripening and harvesting of the straw. He estimates that there are 3,000 or 4,000 acres planted in the Devine territory. We think, like Mr. Price, that Devine is very fortunate in having a firm that will get busy and spend money to help the farmers, as they did in the big corn elevator and will do in the broom corn proposition. They are helping themselves and helping the whole country.

All day Saturday the farmers were carrying out Hummer-Hitt boll weevil machines. Eighteen double row machines and about thirty single, were about the number of new machines that went out.

Mr. J. A. Blackburn was in from Biry Monday and reported good rains up his way.

The Weir boys of Miguel sold a large bale of last year's cotton Thursday to Adams Co. at 25 cents. The bale weighed 595 pounds and brought \$148.75. It will be several days before any new cotton comes in.

The first watermelons seen in Devine came in Thursday. Jake Mechler brought in one or two from his brother, Richard's farm, and a Mexican had a truck load from over towards San Antonio, which he was selling at 25 cents each.

Deep Well Now 900 feet Changing To Oil Burner.

The drillers are down 900 feet in the L. & G. N. well, in the south end of town and are changing to oil burner. They have found practically little water be low the first 200 feet vein and practically no signs of oil. If they do not get what they are drilling for, artesian water, they may strike oil at about 1,700 feet, as they did in the well two miles below town.

Eddie Schott and family are home from an outing near New Braunfels, where they visited Alfred Ehlinger and family.

Scott-Harvey.

Mr. Dave Scott, a prominent young stockman of Devine and Mrs. May Harvey, a charming young widow also of this place and landlady Rose Lodge Hotel, slipped away from their friends last Sunday long enough to go over to Hondo, where they were united in marriage at the home of Mr. and Mrs. Bill Scott, a brother of the groom. Rev. Brown, pastor Hondo Baptist church officiating. The affair had been predicted for some months, since David seemed to be paying more attention to the good tables set by Mrs. Harvey, than to the dogies on the ranch yet the real time in which the event was to be celebrated was kept a secret. The News congratulates.

A business change in the Schlentz Bros. Garage business was effected this week, Chas. W. Schlentz purchasing the interest of his brother A. B. in the business.

She—"Honestly?"

He—"What difference does that make?"

Postmaster and Mrs. Alfred Finger and little son, Melvin, and Mr. and Mrs. Chas. Finger, returned from a ten day outing Wednesday and Mr. Finger is back in the post office. The fish are very much distressed by their return as they now have to rustle for their feed.

If you lose your cotton crop this season because you waited to see what your neighbor was going to accomplish with his Hummer-Hitt Destroyer, your loss will have cost you many times what a Hummer-Hitt Destroyer costs. Remember the old saying for it's a true one, "If a man needs a thing, he pays for it whether he buys it or not", and very often he pays many times as much for having delayed. ADAMS COMPANY, DEVINE TEXAS.

The first work on the National Highway within the limits of the town of Hondo was begun this week when excavation work was started for the storm sewer on south front street. This sewer will be for a length of approximately 140 feet, the head of the sewer opposite the Richter hotel, the outlet in front of the Mofield garage. This pipe will not be placed as deep as was that on North Front, and a 6-inch curb will be built on top of it—and Jay car driving will be at an end. Intakes for storm water will keep the street clear, these intakes being placed on each side of the curb. This work is being done by the National Highway contractors, both the State and county bearing its quota of expense.

## A WORD OF SYMPATHY.

Our heart goes out in sympathy Editor J. W. Blanton of the North View who lost his wife on Wednesday June 6th. Mrs. Blanton died of a brief illness and while in the median of life, leaving besides her a band two young children to mother her sad and untimely departure. The shadow of the mystery of death especially when it falls upon one loved—man stands dumb and speechless, and words of condolence fall like mocking echoes from a penetrable void. In such dark hours it is well to have the faith of poet who sang:—

I know not where His islands lift  
Their fringed palms in air;  
I only know I cannot drift  
Beyond His love and care!
